

ACADEMIC QUALIFICATIONS

Year	Degree/Certificate	Institute	Performance
2021 - Present	B.Tech (Mechanical Engineering)	Indian Institute of Technology Kanpur	8.8/10.0
2020	Class XII (ISC)	Welham Girls' School, Dehradun	97.0%
2018	Class X (ICSE)	Welham Girls' School, Dehradun	95.6%

PROFESSIONAL EXPERIENCE

Engineering Team - Intern Fuze, Abu Dhabi, UAE			May'23-Jul'23
Objective	- Implement a lightning network daemon, create a wallet, open a channel, and transfer funds through it - Evaluate the feasibility of Lightning infrastructure and its implementation as a service in a B2B system.		
Approach	- Ran a lightning node over mainnet using the command-line interface and explored Node.js libraries for the same - Researched on REST API, HTTP codes, Middleware and its implementation through Express application. - Performed a cost-benefit analysis of running a lightning node by observing transaction fees, routing fees, etc.		
Impact	Lightning's lower transaction fees compared to on-chain transactions resulted in cost savings for B2B crypto-exchange operations, thereby reducing transaction settlement time significantly		
Industry 4.0 Prof. Nalinaksh S. Vyas Summer Intern, IIT Kanpur			May'23-Present
Objective	Simulate, implement, and drive the adoption of Industry 4.0 principles and technologies in a factory setting		
Approach	- Applied transfer learning via VGG16 to implement defect detection on collected images of machine parts - Developed and integrated an Enterprise Resource Planning (ERP) system to automate machine operations		
Impact	The implementation boosted factory productivity by 17% by easing machine monitoring and maintenance		

KEY PROJECTS

Deep Dive into Web3.0 Programming Club, IIT Kanpur			May'22-Jul'22
- Created a decentralized loaning system using Java that involved the implementation of Object-Oriented Programming - Gained a grasp on crypto basics, hash functions, and diverse security measures, including 51% attacks and their implications - Leveraged Python's cryptography library to develop a program that could calculate the nonce value for a given input			
Mathematical Trading Strategies Stamatics, IIT Kanpur			May'23-Jul'23
- Explored important techniques for evaluating investments like Sharpe ratio, Sortino ratio, and Maximum Drawdown - Calculated the mentioned parameter for 5 equities and 5 international indices using Yfinance in jupyter notebook - Applied and understood the concept of moving average to analyze lead-lag relationship and correlation between 2 indices			

LEADERSHIP POSITIONS

Assistant Placement Coordinator Students' Placement Office, IIT Kanpur			Apr'23-Present
Leadership	- Spearheaded a team of 70+ members responsible for coordinating the internship and placement drive - Executed the internship process of 1000+ students and placement procedure of 1500+ students in a 3-tier team		
Initiatives	- Enhanced placement and internship awareness among students by organizing various helpful activities such as group discussions, mock interviews, PowerPoint presentations, and resume-making sessions - Developed corporate liaisons with 80+ corporate teams to ensure maximum participation in internship drive		
Impact	- Coordinated Samvardhan, Career Fest with participation from 15+ firms and footfall of 1000+ attendees - Successfully invited new startup firms to register for the internship drive for the academic year 2023-2024		

Technical Team Member Team Vision: Science and Technology Council, IIT Kanpur			May'22-May'23
- Collectively worked in a team of 21 students that aim to develop cutting edge technology under autonomous navigation - Actively participated in the SnT Pavilion by organizing an informative display of the team's projects and achievements Secured 29th position internationally in the challenging AWS Deep-racer Contest based on training a race model			

EXTRA-CURRICULAR ACTIVITIES & ACHIEVEMENTS

Social Initiatives	- As part of the ShikshaKaykalp project, actively contributed to enhancing classrooms, sanitation facilities, and the overall quality of education in rural primary schools within the district of Mathura, UP - Active member of a social initiative called Amodini, aimed at empowering girls of a small town called Chandausi - Selected as a student guide for the upcoming batch to ensure their smooth transition to the college environment		
Technical & Scholastic	- Secured 2nd position in Web designing event at IT fest held by Scindia School, Gwalior in 2019 - Received Ravi and Rohini Sakhuja Scholarship for meritorious performance in Mechanical Engineering - Achieved distinction in the prestigious Fryer Contest organised by the University of Waterloo in 2017		
Others	- Invited by the National University of Singapore to participate in their Science Summer Camp in 2018 - Designed proposals for Antaragni, IITK securing valuable sponsorships to support the event financially - Managed an equity portfolio by selecting fundamentally sound high-growth stocks achieving 11% CAGR
