Work Experience

Industry 4.0 | Prof. Nalinaksh S. Vyas | Summer Intern | IIT Kanpur

(May'23 - Present)

Objective	● Simulate, implement, and drive the adoption of Industry 4.0 principles and technologies in a factory setting
Approach	● Implemented Multilabel classification using transfer learning for defect detection and achieved 100% accuracy ● Devised scheduling algorithm on Python , optimizing factory production with inventory data & client needs ● Executed Real-Time Machine Monitoring using data from NI-OPC servers on LabView for 15+ machines
Impact	● Enhanced efficiency by 17% through optimized machine scheduling and monitoring, driving productivity

Research Experience

MUS Rover: Self learning Musical compositional Rules | Prof. Vipul Arora | IIT Kanpur

(May'23 - Present)

Objective	● To research the possible way to build a model to extract the best compositional rule from the input audio
Approach	● Conducted extensive literature review to find the possibilities to extract the best features from input audio ● Utilized Probability theory, Information theory and Machine learning to solve optimization problems
Results	● The model produced the best feature distribution and the probability of all the features it extracted

Major Competition

Jaguar Land Rover's Robotic Charging Challenge | Inter IIT Tech Meet 11.0

(Jan'23-Feb'23)

Objective	● Develop a robotic arm for automatically plugging the socket into the charging port of a JLR Electric Vehicle
Approach	● Trained Yolov5 model for detection of a charging port in obstructed views with the help of a custom dataset ● Used Transfer Learning based model for pose estimation and trained YOLOv5 model to detect CCS2 port
Result	● Won Gold medal & achieved best arm design & simulation among 19 IITs within budget worth INR 80,000

Positions of Responsibility

Coordinator, Electronics Club | SnT Council, IIT Kanpur

(Apr'23-Present)

Leadership	● Leading a two-tier team comprising of 25 secretaries to foster culture in the domain of electronics
